

AUDITED FINANCIAL STATEMENTS

Maldives Marketing & Public Relations

Corporation Limited

December 31, 2021

INDEPENDENT AUDITOR'S REPORT*to the shareholders of Maldives Marketing and Public Relations Corporation Limited***Report on the Audit of Financial Statements****Disclaimer of Opinion**

We have audited the financial statements of ("the Company") which comprise the statement of financial position as at 31 December 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, because of the significance of the matters described in the Basis for Disclaimer of Opinion section, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements for the year ended 31 December 2021. Accordingly, we do not express an opinion on the financial statements for the year ended 31 December 2021.

Basis for Disclaimer of Opinion

1. The receivable and payable balances (refer note 16.1) recognized by the Corporation on account of leasing of tourist resort islands on behalf of the Government of the Maldives during the period 2013 to 2015. These balances as at the reporting date are receivable from various parties (refer note 16.1) amounting to MVR 1,354,801,755/- and the corresponding liability to repay the same to the Ministry of Tourism amounting to MVR 1,512,856,200/- (including MVR 158,054,445/- already collected) (refer note 19.1) respectively. However, legal proceedings and investigations are ongoing in relation to these balances. Further, there has not been any movements of these balances from 31 December 2015 and the previous auditors have qualified this balance due to lack of sufficient audit evidence.

Considering the lack of adequate supporting audit evidence, including the possible effects (if any) from the outcome of the pending litigations and investigations on the reported balances, we were unable to determine the reasonableness of the receivable and corresponding payable balances as at the reporting date.

2. Included under trade and other payables, are payables to Ministry of Tourism, amounting to MVR 6,001,775/- (2020: MVR 6,001,775/-) (refer note 19.1). Due to lack of availability of audit evidence, we were unable to determine whether any adjustment is required for these payable balances as at the reporting date. Further, there has not been any movements of these balances from 31 December 2016.
3. As included under note 19 of the financial statements, the corporation has stated MVR 11,777,523/- (2020: 10,530,337/-) as Advance from customers for the year ended 31 December 2021. However, we were unable to verify the accuracy, completeness and existence of these balances as at and for the year ended 31st December 2021 as the corporation was unable to provide sufficient supporting reconciliation for the carrying balance at the year end.

4. We were unable to satisfy ourselves as to the accuracy of the prepayments amounting to MVR 9,245,830/- (2020: 9,351,349/-) stated under note 16 of the financial statements for the year ended 31 December 2021. The Corporation was unable to provide sufficient supporting reconciliation for the carrying balance at the year end. Due to lack of availability of audit evidence, we were unable to determine whether any adjustment is required for these prepayment balance as at the reporting date.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the Maldives, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as the management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

1 Corporate information

Maldives Marketing and Public Relations Corporation Limited (“the Corporation”) is a limited liability Corporation incorporated in the Maldives in accordance with the Companies’ Act of the Maldives, with registration number C-0509/2011. The Corporation is fully owned by the Government of Maldives. The registered office of the Corporation is situated at Ministry of Finance and Treasury, Amecnee Magu, Male - 20379, Republic of Maldives.

1.1 Principal activities and nature of operations

Principal activity of the Corporation is to promote Maldives by carrying out marketing and public relations activities such as campaigns, advertising and participating in fairs and roadshows.

1.2 Date of authorization of the financial statements

The financial statements of the Corporation for the year ended 31 December 2021 were authorised for issue in accordance with a resolution of the directors on 28th December 2022.

2 Basis of preparation

2.1 Statement of compliance

The financial statements of Maldives Marketing and Public Relations Corporation Limited have been prepared in accordance with International Financial Reporting Standards (IFRS).

2.2 Basis of Measurement

The financial statements are prepared on the historical cost basis, unless and otherwise identified in a specific accounting policy.

2.3 Functional & Presentation Currency

The Corporation's financial statements are presented in Maldivian Rufiyaa (MVR), which is the Corporation's functional and presentation currency.

2.4 Going concern

Directors have assessed the Corporation’s ability to continue as a going concern and are satisfied that the Corporation will continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainty relating to Corporation’s ability to continue as a going concern. Hence the financial statements have been prepared under the going concern basis.

In assessing the Corporation’s ability to continue as a going concern, the Corporation believes that, in the event of the Corporation's inability to collect funds in relation to receivables from various parties amounting to MVR 1,354,801,755/- (refer note 16.1), the Ministry of Tourism will not demand the corresponding liability amounting to MVR 1,518,857,975/- from the Corporation (refer note 19.1).

2.5 Comparative information

Other than for the amounts restated (refer note 27), the accounting policies have been consistently applied by the Corporation and are consistent with those used in the previous year.

3 Summary of significant accounting policies

3.1 Conversion of foreign currencies

Transactions in foreign currencies are initially recorded by the Corporation at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the end of the reporting period. All differences are taken to the profit or loss.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

3 Summary of significant accounting policies (Continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

3.2 Materiality and Aggregation

In compliance with IAS 1: Presentation of Financial Statements, each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or functions are presented separately unless they are immaterial.

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously.

Income and expenses are not offset in the profit or loss unless required or permitted by any accounting standard or interpretation.

3.3 Current versus non-current classification

The Corporation presents assets and liabilities in statement of financial position based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sell or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Corporation classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.4 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The following specific criteria are used for the purpose of recognition of revenue.

Service transferred over time

Under IFRS 15, the Corporation determines at contract inception whether it satisfies the performance obligation over time or at a point in time. For each performance obligation satisfied overtime, the Corporation recognizes the revenue overtime by measuring the progress towards complete satisfaction of that performance obligation.

Rendering of services

Revenue from rendering of services is recognized in the accounting period in which the services are rendered or performed.

Advertising Income

Advertising Revenues are recognized when the related advertisement or commercial appears before the public.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

3 Summary of significant accounting policies (Continued)

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Corporation receives grants of non-monetary assets, the asset and the grant are recorded at nominal amounts and released to profit or loss over the expected.

Membership Fees and Other income

Membership Fees and Other income is recognized on accrual basis.

3.5 Expenditure recognition

Expenses are recognized in the income statement on the basis of direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been recognized in income statement.

3.6 Taxes

Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantially enacted at the reporting date.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the end of the reporting period.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at end of each reporting period and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of the reporting period. Deferred tax relating to items recognized outside profit or loss is recognized outside income statement. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income (OCI) or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognized subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or in income statement.

3 Summary of significant accounting policies (Continued)

3.7 Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income in profit or loss.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Corporation, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current and comparative periods are as follows:

Furniture and fittings	10 years
Office equipment	05 years
Communication Tools	05 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

3.8 Leases

The Corporation assesses at the inception of the contract whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

(a) Corporation as a lessee

The Corporation applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Corporation recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Corporation recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

3 Summary of significant accounting policies (Continued)

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows

Buildings – 2nd floor of H. Zoneyria	05 years
Godowns- 1st floor of H.Fulidhooge	02 years
Godowns- 1st floor of M. Easy Night	05 years
Buildings – 4th floor of H. Zoneyria	05 years

If ownership of the leased asset transfers to the Corporation at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right- of-use assets are also subject to impairment.

Lease liabilities

At the commencement date of the lease, the Corporation recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in- substance fixed payments) less any lease incentives receivable.

In calculating the present value of lease payments, the Corporation uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Corporation applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as an expense on a straight-line basis over the lease

3.9 Intangible assets

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognized in the statement of profit or loss and other comprehensive income in the expense category consistent with the function of the intangible asset.

3.10 Impairment of non- financial assets

The carrying amounts of the Corporation's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Calculation of recoverable amount

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. A cash-generating unit is the smallest identifiable asset group that generates cashflows that largely are independent from other assets and groups.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

3 Summary of significant accounting policies (Continued)

Impairment/ reversal of impairment

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognized in statement of profit or loss and other comprehensive income. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognized.

3.11 Financial Instruments - Initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

(a) Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Corporation's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Corporation has applied the practical expedient, the Corporation initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Corporation has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Corporation's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Corporation commits to purchase or sell the asset.

(b) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon
- Financial assets at fair value through profit or loss

(c) Financial assets at amortised cost (debt instruments)

The Corporation measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and

The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

3 Summary of significant accounting policies (Continued)

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognised, modified or impaired.

The Corporation's financial assets at amortised cost includes trade receivables.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Corporation of similar financial assets) is primarily derecognised (i.e., removed from the Corporation's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Corporation has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement ; and either
(a) the Corporation has transferred substantially all the risks and rewards of the asset, or
(b) the Corporation has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Corporation has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Corporation continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Corporation also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Corporation has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Corporation could be required to repay.

Impairment of financial assets

The Corporation applies a simplified approach in calculating ECLs for trade receivables and contract assets. Therefore, the Corporation does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Corporation performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A receivable represents the Corporation's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section I) financial instruments – initial recognition and subsequent measurement.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise of balances with banks and cash in hand. For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand and balances with banks as defined above. Statement of cash flows is prepared in "indirect method".

3 Summary of significant accounting policies (Continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Corporation's financial liabilities include interest bearing loans and borrowings, trade and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognized in statement of comprehensive income when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of comprehensive income. This category generally applies to interest-bearing loans and borrowings.

Derecognition

Financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of comprehensive income.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Corporation has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Corporation transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Corporation performs under the contract.

3.12 Provisions

Provisions are recognized when the Corporation has a present obligation (legal or constructive) as a result of a past event, where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Corporation expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate assets but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

3 Summary of significant accounting policies (Continued)

3.13 Retirement Benefit Obligations

a) Maldives Retirement Pension

Employees are eligible for Maldives Retirement Pension Scheme in line with the Maldives pension Act No. 8/2009. The Corporation contributes 7% of basic salary of Maldivian employees to Maldives Retirement Pension Scheme.

b) Other employee benefits

Short-term employee benefit obligations of the Corporation are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short-term cash bonus if the Corporation has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

4 New and amended standards and interpretations

A number of new standards are effective for annual period beginning after 1st January 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following amended standards and interpretation are not expected to have a significant impact on the Company's financial statements.

- Annual Improvements to IFRS standards 2018-2020
- Cost of Fulfilling a Contract – Onerous Contracts (Amendments to IAS 37)
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)
- Reference to Conceptual Framework (Amendments to IFRS 3)
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS practice statement 2)
- Definition of Accounting Estimates (IAS 8)
- Deferred tax related to assets and Liabilities arising from a single Transaction. (Amendments to IAS 12)
- IFRS 17 Insurance Contracts

16.1 Receivable from lease acquisitions

These balances were recognised by the Corporation on account of leasing of tourist resort islands on behalf of the Government during the period 2013-2015. These balances as at the reporting date are receivable from various parties amounting to MVR 1,354,801,755/- and the corresponding liability to repay the same to the Ministry of Tourism amounting to MVR 1,512,856,200/- (including MVR 158,054,445/- already collected) (refer note 19.1). However, legal proceedings and investigations are ongoing in relation to these balances (refer note 22.2).

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

16.2 Fixed term cash lend

Fixed term cash lent MVR 157,253,546/- (2020: MVR 157,253,546/-) is receivable from SOF Private Limited. As this amount was not recovered a case was filed at the civil court against the company and the verdict issued by the court on 17 September 2017 was in favour of the Corporation. Despite the court's decision, SOF Private Limited has not settled these balances. As a result, the Corporation has filed a case at the court to get the court verdict be enforced. Since a significant period has passed without this amount being recovered, the Corporation has decided to make a provision for the entire amount for the year 2021.

16.3 Amounts due from related parties

	Relationship	2021 MVR	2020 MVR
Maldives Tourism, Arts and Culture	Affiliate through GoM	-	10,924,634.00

The opening balance represent pending receivables from Ministry of Tourism for claims made by the Corporation in relation to Budget Allocation up to the year 2017. Budget claims were recognized under government grant. The Ministry of Tourism has confirmed in writing that there is no balance payable to the corporation in regard to this. As a result, this balance has been written off accordingly.

Fixed term cash lend and borrowing amount of MVR 85,137,999 due to Maldives Ports Limited was restructured to a term loan in the year 2020. The loan is repayable from 2020 to 2035 in yearly instalments subject to an annual interest rate of 4.60%.

22 Capital commitment and contingent liabilities

22.1 Capital commitment

The Corporation had no significant capital commitments or contingent liabilities as at 31 December 2021.

22.2 Contingent liabilities

On December 9, 2015, the Ministry of Tourism (MOT) informed the Corporation (MMPRC) through its letter number 88-B/MMPRC/2015/70 stating that the Government of Maldives has decided to withdraw the mandate given to the Corporation to lease Islands, lagoons land plots for tourism purposes. Also, the letter stated that MOT will be dealing with all the issues in connection with the leases made through the Corporation.

Some parties have filed cases against the Corporation to the Civil Court claiming to complete leasing process as they have received the offer letter from the Corporation. The Civil Court has dismissed those claims stating that the Corporation has no legal madate to complete such process.

There are some ongoing litigations against both the Corporation and Ministry of Toursim jointly. In one of the Cases, the Civil Court held both the Corporation and Ministry of Tourism liable and to refund the acquisition cost paid by the claimant to the Corporation to acquire the lease of an island.

However, as informed in the letter, Ministry of Tourism would be dealing with the recovery and the liability in connection with all the leases made through MMPRC in 2014 and 2015.

No provisions have been made in these financial statements in connection with the above other than to the payable balance to Ministry of Tourism recognised in these fianancial statements amounting to MVR 1,512,856,200/- (refer note 19.1) as the Management believes that any benefits or additional liabiliites that could arise from resolution of recovery actions shall not be transferred to the Corporation by Ministry of Tourism.

Maldives Marketing and Public Relations Corporation Limited
NOTES TO THE FINANCIAL STATEMENTS
Year ended 31 December 2021

23 Financial risk management objectives and policies

The Corporation's principle financial liabilities comprise trade and other payables. The main purpose of these financial liabilities is to raise finance for Corporation's operations and to provide guarantees to support its operations. The Corporation has financial assets such as trade and other receivables and cash and balances with banks, which are arise directly from its operations. The Corporation is exposed to market risk, credit risk and foreign currency risk. The Corporation's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks which are summarised below.

23.1 Foreign currency risk

The Corporation incurs currency risk on services, purchases that are denominated in foreign currency. Foreign exchange risk arises from future commercial transactions and is recognised assets and liabilities.

23.2 Liquidity risk

The Corporation's objective is to maintain a balance between continuity of funding and flexibility through the use of internally generated funds and government budget every year. As part of its overall liquidity management, the Corporation maintains sufficient level of cash or cash convertible investments to meet its working capital requirement.

23.3 Credit risk

The Corporation has no significant concentrations of credit risk. It has policies in place to ensure that services are provided to customers with an appropriate credit history.

24 Fair value of financial assets and financial liabilities

The fair value of short-term financial assets and liabilities approximate their carrying value because of their immediate or short-term maturity. Directors believe that the fair value of long-term financial assets would not differ significantly from their carrying amount recorded in the statement of financial position.

25 Events occurring after the reporting date

There have been no material events occurring after the reporting date that require adjustments to or disclosure in the financial statements.

26 Emoluments to the key management personnel

Board of Directors of the Corporation are the members of the key management personnel:

The Corporation has paid remuneration as follows:

	2021	2020
	MVR	MVR
Short-term benefits	440,560	434,500

The amounts disclosed above are the amounts recognised as an expense during the reporting period related to key management personnel.

27 Adjustment on corrections of errors

- (i) Certain prior period errors which have been detected during the year has been corrected as per IAS 8 (Accounting Policies, Changes in Accounting Estimates & Errors) retrospectively in the comparative figures.

Corrections of errors as follows:

a. Corporation has identified that an expense relating to a marketing campaign undertaken in 2020 which was paid in 2021 have not been accrued in the year 2020. Consequently, the management of the corporation resolved to adjust these balances with retrospective effect.

b. Corporation has identified that a marketing fair expense recorded in 2020 was relating to an amount transferred to 2022 as the fair was postponed due to covid-19 pandemic. Consequently, the management of the corporation resolved to adjust these balances with retrospective effect to prepayments and deposits.

c. As a result of the correction of above mentioned errors, the previously reported taxable profit changed to a taxable loss, resulting in nil tax liability for the year 2020. Due to the taxable loss of 2020, deferred tax increased as the loss can be claimed in the future periods. Consequently, the management of the corporation resolved to adjust these balances with retrospective effect.
