AUDITOR GENERAL'S OFFICE

## **AUDITOR GENERAL'S REPORT**

### **TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF MALE' WATER AND SEWARGE COMPANY PRIVATE LIMITED**

#### **Opinion**

We have audited Male' Water and Sewerage Company Private Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at 31 December 2018, the consolidated statement of comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the year then ended, and the notes to the consolidated financial statements, which include a summary of significant accounting policies and other explanatory information set out in pages 3 to 42.

In our opinion, Male' Water and Sewerage Company Private Limited's consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESB Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

This report is made solely to the Group's members, as a body, in accordance with section 71 of the Companies Act No. 10 of 1996. Our audit work has been undertaken so that we might state to the Group's members those matters we are required to state to them in an auditors' report and for no other purpose. Therefore, we do not accept or assume responsibility to anyone other than the Group and the Group's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Responsibilities of management and those charged with governance for the financial statements**

Management is responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with the International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of

consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these interim financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

10<sup>th</sup> April 2019

Hassan Ziyath  
Auditor General

The accounting policies and notes on pages 8 through 42 form an integral part of the financial statements.

**Male' Water and Sewerage Group Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**1. Corporate information**

Male' Water Sewerage Company Private Limited is a limited liability Company incorporated and domiciled in Republic of Maldives since 1 April 1995. The Company is engaged in the treatment and distribution of water, providing sewerage facilities and water related construction contracts in the Maldives including supplying electricity facility in Dhavaafaru Island. The registered office of the Company is located at 20-04, Ameenee Magu, Machchangolhi, Male', Republic of Maldives.

The Government of Maldives (GOM) has a controlling interest in the shares of the Company.

The Group consists of the Company's interest in a subsidiary undertaking, Island Beverage Maldives Private Limited, a limited liability Company incorporated and domiciled in the Republic of Maldives, which produces, supplies and sells bottled mineral water in the Republic of Maldives. The Company owns 51% of authorized and issued share capital of the subsidiary.

**2. Basis of preparation and other significant accounting policies**

**2.1 Basis of preparation**

The consolidated financial statements of the Male' Water and Sewerage Company Private Limited and the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standard Board (IASB). The Consolidated financial statements are prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value.

The preparation of consolidated financial statement in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. There are no areas involving a higher degree of judgement or complexity, or areas where assumption and estimates are significant are set out. No adjustments are made for inflationary factors affecting these consolidated financial statements. The consolidated financial statements are presented in Maldivian Rufiyaa (MVR) and all the values are rounded to nearest integral, except when otherwise indicated.

The consolidated financial statements of Male' Water and Sewerage Company Private Limited for the year ended 31 December 2018 were authorised for issue in accordance with a resolution of the board of directors on 10 April 2019.

**Going concern**

The Board of Directors is satisfied that the Group has adequate resources to continue its operations in the foreseeable future and management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore going-concern basis has been adopted in preparing these financial statements.

**2.2 Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiary as at 31 December 2018. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, the Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.2 Basis of consolidation (Continued)**

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies in line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

**2.3 Changes in accounting policies and disclosures**

The accounting policies adopted in the preparation of these financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018.

**New and amended standards and interpretations**

In these financial statements, the Group has applied IFRS 15 Revenue from Contracts with Customers, IFRS 9 Financial instruments and IFRS 7R, effective for annual periods beginning on or after 1 January 2018, for the first time which require restatement of previous financial statements.

**IFRS 9 and IFRS 7R**

IFRS 15, IFRS 9 and IFRS 7R together with several other amendments and interpretations apply for the first time in 2018, but do not have an impact on the financial statements of the Group and no requirement of previous financial statement restatement.

**IFRS 15**

The group has adopted IFRS 15 Revenue from contract with customers for the first time in 2018. The standard introduces a new five-step approach to measuring and recognizing revenue from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

**Year ended 31 December 2018**

**2.3 Changes in accounting policies and disclosures (Continued)**

**IFRS 15(Continued)**

The Group has elected to apply the full retrospective method in adopting IFRS 15. The adoption of new revenue standard has no material changes to the financial statement other than presentational changes disclosed below:

**2.4 Summary of other significant accounting policies**

**2.4.1 Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 Financial Instruments, is measured at fair value with the changes in fair value recognised in the statement of profit or loss in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.1 Business combinations and goodwill (Continued)**

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquire are assigned to those units.

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

**2.4.2 Current versus non-current classification**

The Group presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sell or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting date

Or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability at least twelve months after the reporting date.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.4.3 Conversion of foreign currencies**

The Group's financial statements are presented in MVR which is the Group's functional and presentation currency.

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date. All differences are taken to the statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.4 Fair value measurement**

The Group measures financial instruments such as derivatives, and non-financial assets such as investment properties, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.5 Revenue from contracts with customers**

The Group is largely in the business of sale of water, electricity and Contracting of water & sewerage projects on behalf of the government. Revenue from contracts with customers is recognised when the control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements.

**a) Sale of water and Electricity**

Revenue from Sale of water and Electricity is recognised at the point in time when control of the asset is transferred to the customer, generally on consumption of water and Electricity. The normal credit term is 30 days upon consumed.

**b) Construction projects - Water & sewerage**

The Group water & sewerage construction projects under long-term contracts with government. Such contracts are entered into before construction of such projects begins. Under the terms of the contracts, the Group is contractually restricted from redirecting the properties to another customer and has an enforceable right to payment for work done. Revenue from Water & sewerage construction projects are therefore recognised over time on a cost-to-cost method, i.e. based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Management considers that this input method is an appropriate measure of the progress towards complete satisfaction of these performance obligations under IFRS 15.

The Group becomes entitled to invoice customers for construction of Water & sewerage projects based on achieving a series of performance-related milestones. When a particular milestone is reached, the customer is sent a relevant statement of work signed by a third-party assessor and an invoice for the related milestone payment. The Group will previously have recognised a contract asset for any work performed. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer. If the milestone payment exceeds the revenue recognised to date under the cost-to-cost method then the Group recognises a contract liability for the difference. There is not considered to be a significant financing component in construction contracts with customers as the period between the recognition of revenue under the cost-to-cost method and the milestone payment is always less than one year.

**c) Sale of goods - Water bottles, pipes and other water related item**

The group sells Water bottles, pipes and other water related items directly to customers.

For sale of Water bottles, pipes and other water related items to customers, revenue is recognised by the group at a point in time when control of the goods has transferred to customer.

**2.4.6 Expenditure recognition**

Expenses are recognised in the consolidated statements of comprehensive Income on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to income in arriving at the profit for the year.

Expenditure incurred for the purpose of acquiring, expanding or improving assets of a permanent nature by means of which to carry on the business or for the purpose of increasing the earning capacity of the business has been treated as capital expenditure.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.7 Taxation**

**a) Current tax**

Provision for business profit tax is based on the elements of income and expenditure as reported in the consolidated financial statements and is computed in accordance with the provisions of the relevant tax statutes.

**b) Deferred tax**

Deferred taxation is the tax attributable to the temporary differences that arise when taxation authorities recognise and measure assets and liabilities with rules that differ from those of the consolidated financial statements. Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, unused tax credits and tax losses carried forward to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the unused tax credits and tax losses carried forward can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the year when the asset is realised or liability is settled, based on the tax rates and tax laws that have been enacted or substantively enacted as at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same taxable entity and the same taxation authority. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

**c) Sales tax**

Revenue, expenses assets are recognised net of the amount of sales tax. Receivable and payables that are stated with the amount of sales tax included. The net amount of sales tax recoverable from, or payable to the taxation authority is included as part of receivables of payables in the consolidated statement of financial position.

**2.4.8 Property, plant and equipment**

All property, plant and equipment, which are initially recorded at historical cost, are stated at cost less depreciation. Cost includes the transfer value of the assets, or their purchase cost, or the cost of construction, together with any incidental expenses of acquisition. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful life, commencing from the date in which the assets

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.8 Property, plant and equipment (Continued)**

were purchased up to the date of disposal, except for leased land and buildings constructed therein, which are depreciated over the unexpired period of lease, as follows:

|  |            |
|--|------------|
| Public rain water scheme and new water scheme                  | - 40 years |
| Sewerage system  | - 20 years |
| Reverse Osmosis (RO) plant, generator, bore well and machinery | - 15 years |
| Moto vehicles  | - 04 years |
| Office equipment   | - 04 years |
| Other equipment  | - 05 years |
| Furniture and fittings   | - 08 years |
| Computer hardware  | - 03 years |
| Computer software  | - 05 years |
| Desalination building and fuel farm                            | - 20 years |
| Leasehold Land right   | - 50 years |
| Vessals  | - 20 years |

The assets residual value and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Cost of testing whether the asset is functioning properly, after deducting the net proceeds from selling any items produces while bringing the asset to that location and condition are capitalised, as part of the cost of the asset.

Gain and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of comprehensive income. When revalued assets are sold, the amounts included in other reserves are transferred to retained earnings.

**2.4.9 Leases**

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Assets leased, which transfer substantially all the risks and rewards associated with ownership other than the legal title (absolute ownership), are classified as finance leases. Amounts receivable under finance leases are included under lease receivable and are stated in the statement of financial position after netting off the prepaid rentals and unearned income.

**2.4.10 Intangible asset**

**a) Brand name**

Brand name is shown at historical cost. Brand name has a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the statement of comprehensive income. When revalued assets are sold, the amounts included in other reserves are transferred to retained earnings.

**b) Computer software**

Cost associated with maintaining computer software programmed are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the group are recognized as intangible assets when the required criteria are met. Computer software development costs recognised as assets are amortized over their estimated useful lives, which does not exceed four year.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.11 Investment properties**

Investment properties are measured at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Cost of the investments property is amortised over the useful life of the property.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the income statement in the period of de-recognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of changes in use.

**2.4.12 Impairment of non-financial assets**

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an assets fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non- financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

**2.4.13 Financial instruments - initial recognition and subsequent measurement**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**a) Financial assets**

**1. Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policies in section (e) Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.13 Financial instruments – initial recognition and subsequent measurement (Continued)**

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

**II. Subsequent measurement**

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

**III. Financial assets at amortised cost (debt instruments)**

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows

And

- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, and loan to an associate and loan to a director included under other non-current financial assets.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.13 Financial instruments - initial recognition and subsequent measurement (Continued)**

**IV. Financial assets at fair value through OCI (debt instruments)**

The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling

And

The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group's debt instruments at fair value through OCI includes investments in quoted debt instruments included under other non-current financial assets.

**V. Financial assets designated at fair value through OCI (equity instruments)**

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group elected to classify irrevocably its non-listed equity investments under this category.

**VI. Financial assets at fair value through profit or loss**

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.13 Financial instruments – initial recognition and subsequent measurement (Continued)**

**IV. Financial assets at fair value through profit or loss (Continued)**

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognised as other income in the statement of profit or loss when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

**V. Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

The rights to receive cash flows from the asset have expired

Or

The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

2.4 Summary of other significant accounting policies (Continued)

2.4.13 Financial instruments - initial recognition and subsequent measurement (Continued)

**VI. Impairment of financial assets**

The Group applies a simplified approach in calculating ECLs for trade receivables and contract assets. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**b) Financial liabilities**

**I. Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

**II. Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

**III. Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of comprehensive income when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of comprehensive income. This category generally applies to interest-bearing loans and borrowings.

**IV. De-recognition**

Financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

**Male' Water and Sewerage Company Private Limited**  
**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.14 Trade and other receivables**

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognized in the income statement within 'selling and marketing costs. Trade receivables are carried at anticipated realizable value. A general provision is made for doubtful receivables based on a review of all outstanding amounts from customers at the year end. Bad debts are written off during the year in which they are identified.

**2.4.15 Contract assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

**2.4.16 Inventories**

Inventories are stated at the lower cost and net realized value. Cost is determined using the weighted average cost method. Cost of inventory includes purchases, transport and handling costs. Net realizable value is the estimated selling price in the ordinary courses of business, less the costs of completion and variable selling expenses. Where necessary, provision is made in the financial statements for obsolete, slow-moving and defective inventory.

The stock of desalinated water is not valued and is therefore not reflected in the consolidated financial statements. The stock quantity of desalinated water held from year to year is not expected to vary substantially to have a material effect on the financial results for the year.

**2.4.17 Cash and cash equivalents**

Cash and cash equivalents in the consolidated statement of financial position comprise of cash at banks and cash in hand, other short-term highly liquid investments with original maturities of three months or less. For the purpose of cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

Cash flow statement is prepared in "indirect method".

**2.4.18 Other Liabilities and provisions**

All known liabilities have been accounted for in preparing the financial statements. The materiality of the events occurring after the reporting period have been considered and appropriate adjustments and provisions have been made in the financial statements where necessary.

Liabilities classified as current liabilities in the statement of financial position are those, which fall due for payment on demand or within one year from the end of the reporting period. Non-current liabilities are those balances, which fall due for payment after one year from the end of the reporting period.

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

**Accounting Policies and Explanatory Notes to the Consolidated Financial Statement**  
**Year ended 31 December 2018**

**2.4 Summary of other significant accounting policies (Continued)**

**2.4.19 Contract liabilities**

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

**2.4.20 Defined contribution plans**

Employees are eligible for Maldives Retirement Pension Scheme in line with the respective statutes and regulations. The Group contributes 7% of basic salary of Maldivian employees to Maldives Retirement Pension Scheme.

**2.5 Significant accounting judgements, estimates and assumptions**

The preparation of consolidated financial statements requires the application of certain critical judgements, estimates and assumptions relative to the future. Further, it requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

**Useful life-time of the Property, Plant and Equipment**

The Group reviews the residual values, useful lives and methods of depreciation of assets at each reporting date. Management estimates these values, rates, methods and hence they are subject to uncertainty.

**Tax**

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded.

The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities. The amount of such provisions is based on various factors, such as differing interpretations of tax regulations by the Group and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the Maldives.

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based

upon the likely timing and the level of future taxable profits together with future tax planning strategies.

**Going concern**

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the financial statements are prepared on the going concern basis.

**2.5 Significant accounting judgements, estimates and assumptions (Continued)**

**Impairment of non-financial assets**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset.

**2.6 Standards issued but not yet effective**

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective

**IFRS 16 - Leases**

IFRS 16 was issued in January 2016 and it replaces IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less).

At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under IFRS 16 is substantially unchanged from today's accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases.

IFRS 16 also requires lessees and lessors to make more extensive disclosures than under IAS 17.

IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Early application is permitted, but not before an entity applies IFRS 15. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

| <b>Deferred tax liability as at 31 December</b>       | <b>10,605,314</b>               | <b>10,527,123</b>               | <b>10,605,314</b>               | <b>11,354,154</b>               |

Deferred tax liabilities are calculated on all temporary differences under the liability method using the effective tax rate of 15%. Deferred business profit tax liabilities/assets for the Group and the Company are arising from accelerated tax depreciation and the provision for bad debt. The net movement on the deferred income tax is as follows:

|                                     | COMPANY                         |                                 | GROUP                           |                                 |

**8.2 Earnings per share**

**8.3** Earnings per share is calculated by dividing the profit for the year attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. The weighted average number of ordinary shares outstanding during the year and the previous year are adjusted for events that have changed the number of ordinary shares outstanding, without a corresponding change in the resources such as a bonus issue.

**8.4** The following reflects the income and share data used in the basic earnings per share computation.

|  | COMPANY                         |                                 | GROUP                           |                                 |

**8.5 Dividends per share**

At the annual general meeting held on 5 April 2018, a final dividend in respect of the financial year 2018 of MVR 595/- per share (2017: MVR 630/- per share) amounting to a total of MVR 158,860,075/- (2017: MVR 168,144,158/-) was declared. These financial statements reflects this dividend, which has been accounted for under statement of changes in equity as an appropriation of retained earnings during the year.

Amounts relating to contract assets are balances due from customers from water consumption and construction retentions.

Unbilled water consumption includes water consumption as end of the reporting period which are not opened for billing cycle.

Construction retention is held by customers until the agreed related milestones are achieved.

Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer.

There is no concentration of credit risk with respect to trade receivables, as the Group has a large number of customers.

The amounts due from related parties are unsecured, interest free and have no fixed repayment terms. Accordingly, these amounts are shown as falling due within one year.

Prepayments of the Company include advance payments made to suppliers amounting to MVR 55,853,143/- (2017: MVR 70,971,447/-) and security deposit MVR 725,310/- (2017: MVR 666,810/-).

Other receivables of the Group include LC margin money MVR 22,411,936/- (2017: MVR 16,147,795/-), staff loans amounting to MVR 4,192,174/- (2017: MVR 4,977,633/-), bank guarantee margin MVR nil (2017: MVR 1,278,057/-), MFLC loan advance payment amounting to MVR nil (2017: 1,210,000/-) during this year.

Trade receivables are non-interest bearing and are generally on 30-90 day terms. As at 31 December 2018, trade receivable amount is MVR 100,131,958/- (2017:MVR 217,949,025/-). All trade receivables are subject to credit risk exposure. However, impairment of trade receivable is made when certain debtors are identified (over 180 days 50% and over 365 days 100% provision) to be irrecoverable and as at 31 December 2018, trade receivable of an initial value of MVR 63,857,626/- (2017: 60,848,625/-) were impaired and provided for. See Note no 18.1 for the movement in the provision for impairment of receivables.

**Legal claims and contingency**

Company's previous Managing Director Mr. Ahmed Didi has filed a case against the Company for his dismissal from his post of Managing Director alleging that was unconstitutional and therefore illegal. No provision in the financial statements was made as no payments are anticipated by the company at the reporting date. Currently, this has been concluded by the Civil Court on 26 April 2016 by deciding in favor of MWSC and found no cause to award the damages claimed by Mr. Didi. The case was appealed in the high court on 08 May 2016.

The Company has filed a case against Global Projects Development Private Limited to recover liquidity damages amounting to MVR 3,105,942/- caused due to the delays in completion of works awarded to the Global Projects Development private Limited by a contract dated on 9 October 2011. Judgment in favor of MWSC was received in the Civil Court on 27th August 2017 in MWSC's claim against GPD for liquidated damages. MWSC shall receive in equal monthly installments USD 2,476,252/-. This amount receivable is after the deduction of the USD 629,689/- payable (the retention payment) to GPD. Hence, GPD has appealed the verdict in the High Court of Maldives.

Day to day Transport Service("D2D") was intending to file a case against the Company at the civil court pursuant to a contract that was awarded a D2D, which was terminated prior to expiry of the contract. In 2019, D2D claimed for losses of an amount totaling MVR 2,814,509/- and Company is currently contesting the claim at the civil court.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**Year ended 31 December 2018**

**28 Financial risk management objectives and policies**

The Group's principle financial liabilities comprise interest-bearing loans and borrowings, trade and other payables including payables to related parties. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group's principal financial assets include trade receivables, cash in hand and balances with the banks which arise directly from its operations.

The Group is exposed to foreign currency risk, liquidity risk, credit risk and interest risk. The Group's senior management oversees the management of these risks and the Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

**28.1 Foreign currency risk**

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through committed credit facilities. The Group's object is to maintain a balance between continuity of funding and flexibility through the use of payables and borrowings. As part of its overall prudent liquidity management, the Group maintains sufficient level of cash balances to meet its working capital requirement.

**28.2 Liquidity risk**

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interest bearing loans, bank overdrafts and related party borrowings. As a part of its overall prudent liquidity management, the Group maintains sufficient level of cash and cash equivalents to meet its working capital requirement.

**28.3 Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

The Group trades only with recognised, creditworthy third parties. It is the Group's policy that all the customers who wish to trade on credit terms are subject to credit evaluation procedures. In addition, receivable balances are monitored on an ongoing basis so that to minimize the Group's exposure to bad debts.

Since the Group trades only with recognized third parties, there is no requirement for collateral.

**28.4 Interest rate risk**

The Group's exposure to market risk for changes in interest rates relates primarily to the Group's long-term debt obligations. The investment decisions are made by Directors giving due relevance to the Group's financial strategy and market interest rates.

**29 Capital risk management**

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

'In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends payable to shareholders, issue new shares or sell assets to reduce debt.

'The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity', as shown in the consolidated statement of financial position, plus net debt.

The gearing ratios as at 31 December was as follows:

|   | COMPANY       |               | GROUP         |               |
